

## TETFund Assessment Team Visits BUK's Centre for Renewable Energy and Sustainability Transitions

By Suleiman Salihu

**T**ertiary Education Trust Fund (TETFund) Assessment Team visited Bayero University Kano's Centre for Renewable Energy and Sustainability Transitions (CREST) to identify challenges faced by the center and extend support towards addressing them for better performance.

The team led by the Director, Africa Center of Excellence for Population Health and Policy (ACEPHAP), Professor Hadiza Shehu Galadanci, said the visit was to assess CREST, make observations, suggestions and forward its recommendations to the Management of TETFund as part of its mandate.

Professor Galadanci disclosed that the BUK's Centre for Renewable Energy and Sustainability Transitions was recognized by the TETFund as a Centre of Excellence in

infrastructure with equipped laboratories, library, lecture rooms and a bus, among others.

Prof. Galadanci also thanked the management of the University for the hospitality accorded to her team which comprised, Assistant Chief; Dr. Comfort Ochepe and Dr. Hadiza Isma'il of the Research and Development Unit, TETFund Centre of Excellence, Abuja.

Earlier, the Director of CREST, Professor Nasir Isa Fagge, said that the TETFund assessment team was at the University to assess the activities of the Centre. He added that the team had gone round the Centre and was at the Office of the Vice-Chancellor to pay him a courtesy call and brief him on the outcome of its findings. The CREST was established in 2014 to conduct research, prepare and disseminate knowledge in three thematic areas of biomass and biofuels, solar and nuclear energy.

Responding, the Vice-Chancellor, Prof. Sagir Adamu Abbas, who was represented by the Deputy Vice-Chancellor Academics, Prof. Sani Muhammad Gumel, assured the team that all observations recorded by the team would be put into consideration.

The Vice-Chancellor informed the team that the University had carefully selected a competent Centre leader/Director, Prof. Nasir Isa Fagge and his Deputy, Prof. Haruna Musa as well as other staff of the Centre.

He commended the team leader, Prof. Galadanci whom he

described as part of the University appointed by the TETFund to assess CREST as one of those centres in her primary place of assignment. He, however, described the selection of the team leader as an indication of trust put by TETFund not only to her but to the entire Bayero University, Kano. He then advised the team leader to maintain her nature of hardworking, consistency and accountability.

the year 2020 with a five-year project plan. "It is very important for us to assess and trace challenges, as well as to see what is needed in supporting the Centre to succeed," she remarked.

The team also paid a courtesy call on the Vice-Chancellor on Monday 8<sup>th</sup> April, 2024 and brief him on the observations it made as well as inform him what needed to be done to improve the Centre. She commended the management of the University for the provision of

# BUK Imam Calls on Leaders to Be Just and Fair To All and Sundry

By Ibrahim Ado Saleh

Muslims around the globe observed Eid-il-Fitr Sallah celebration on Wednesday 10<sup>th</sup> April 2024, which marked the end of 30 Days of fasting in the Month of Ramadan.

The Imam of BUK New Campus mosque, Dr. Nuhu Abdullahi Usman Giwa, called on traditional, religious and political leaders and those holding positions of authority to be just and fair in carrying out their duties.

He said the world has changed and that people are living in fear, adding that leaders must work hard to safeguard the lives and property of the citizens.

Dr. Giwa also reminded people that the level of poverty is so excruciating. People are now seriously suffering. He, however, said that was an indication for us to change our attitude towards life and towards each other and repent.

“We should love one another, the level of poverty and hardship will never change until we change our behaviours and attitude for good, which is when Allah SWA will change the situation for us,” he remarked.

The Imam admonished people to give alms (Zakatil-Fitr) to the needy preferably before the Eid prayer. He said ‘today is a

day of joy and happiness. People should visit their neighbours, loved ones and relatives. And also share foods and pleasantries.

The Vice Chancellor, Prof. Sagir Adamu Abbas, represented by DVC (Academics), Prof. Sani Mohammed Gumel, also admonished staff to continue to reflect the teachings and lessons of the Ramadhan fasting.

## Management Frowns at Menace of Stray Animals on Campuses

The University Management has observed with grave concern the increasing number of stray animals on both Campuses of the University that not only litter the environment, but well as damage crops and other plants including those at research farms. It was observed that, academic areas, students' hostels, staff quarters and the Senate building are not spared from the menace of these stray animals.

The University Security Division, which is mandated to check this menace, has been arresting these stray animals almost on daily basis and charging the owners some token fees, while in some cases, demanding payments for

damages done to serve as deterrent, but all to no avail as the animals continue to stray.

Regrettably, it has been discovered that most of the owners are members of staff of the University with a few of them coming from the neighbouring communities.

These excesses must be stopped henceforth. Apart from contravening one of the guidelines of staff quarters allocation, which regulates animal rearing in the Campuses, this also violates the law of the land on indiscriminate rearing of animals, which restricts them from straying to cause havoc on other citizens' property and assets.

In view of this, the University Management is prepared to take all appropriate measures to address this recurring menace, which includes imposing more drastic charges and possible ejection of defaulters. Therefore, occupants of staff quarters who rear animals are to be guided by the

content of this circular to cooperate and keep the Campuses clean free from stray animals.
