BUK Wins N100m By Nura Garba TRIMING Research Grant

Bayero University Centre for Dryland Agriculture in collaboration with the International Crops Research Institute for the Semi-Arid Tropics (ICRISAT) and National Space Research and Development Agency (NASRDA) has won a three hundred and twenty-seven thousand, two hundred and sixty-three dollars ninety-two cents \$327,263,92 (about N100m) Transforming Irrigation Management in Nigeria (TRIMING) research grant.

TRIMING is a World Bank project with counterpart funding under the Ministry of Water Resources. The objective of the project is to improve access to irrigation and drainage services and to strengthen institutional arrangements for integrated water resources management and agriculture service delivery

in selected large-scale public schemes in Northern Nigeria which include: Bakolori Irrigation Scheme (BIS); Dadin Kowa Irrigation Scheme (DIS); Hadejia

Engr. Peter Y. Manjuk (standing) and other stakeholders at signing of the Memorandum of Agreement (MoA)

Valley Irrigation Scheme (HVIS); Kano River Irrigation Scheme (KRIS) and Middle River Valley

Irrigation Scheme (MRVIS).

Bayero University as the lead institute, on behalf of other collaborators, signed a Memorandum of Agreement (MoA) on 7th March, 2019 for the implementation of an Innovative Action Research in Kano River Irrigation Scheme titled: **Participatory Soil Salinity/Sodicity Management for Sustainable Crop Productivity under Irrigation and Improved Livelihood in Kano River Irrigation Project.**

BUK Welcomes COREN Accreditation for Quality Programmes - VC

By Mustapha Gide

Bayero University is strictly adhering to the guidelines of COREN, NUC and other professional associations with the hope of becoming one of the best universities in Africa and globally, the Vice Chancellor, Professor Muhammad Yahuza Bello, has disclosed.

While receiving COREN accreditation team on Monday, 11th March, 2019, Professor Bello, who was represented by the Deputy Vice Chancellor (Administration), Professor Haruna Wakili, said the University's collegiate system, training and retraining as well as equipping its laboratories were among the

Present at the MoA signing were the National Project Coordinator of TRIMIMNG, Engineer Peter Yakubu Manjuk and his team from Federal Ministry of Water Resources; BUK team led by Director, Academic Planning, Professor Bala Sidi Aliyu and a team of researchers; Research Panel of Experts (RPoE) led by Prof. Henry E. Igbadun and the Director, CDA, Professor Jibrin M. Jibrin.

Chemical engineering were allotted separate departments.

Professor Bello told the accreditation team that the University perceived accreditation as a routine exercise that helps institutions to improve their facilities and programmes. He noted that Bayero University ran a transparent system for each accreditation team to scrutinize its facilities, records and any other thing.

Speaking earlier, the team leader, Engr. Felix O. Ebuzoeme, told the Vice Chancellor that the major mandate of COREN was quality assurance for

Nigerian universities to globally compete with their counterparts. He added that accreditation was for partnership and growth, aimed at building and not witch-hunting.

Engineer Ebuzoeme said that the products of any programme that had not been accredited would never be registered and, as such, universities and other tertiary institutions in the country should support the exercise, because at the end, it is Nigeria that will

benefit.

initiatives the University was taking to attain the set goal.

The Vice Chancellor said the next step in the implementation of the collegiate system was creating an additional college for engineering-related programmes; that was why some programmes like B. Eng. Petro-Chemical Engineering and B. Eng.

The Vice Chancellor, shortly before their departure, assured the team on courtesy call that Bayero University would continue to implement observations made by all teams coming for the accreditation of the University's programmes.

Rampant Theft Cases of Aluminium Window Panels in the University

This is to draw the attention of all members of the University Community to rampant theft cases recorded in the University with regards to the theft of aluminium window panels and on the modalities adopted to check future occurrences of this menace. The modalities are as follows:

- After closing hours, staff must ensure all window panels locks are activated from the inside of offices, lecture rooms, laboratories or any other structures with aluminium sliding windows.
- Structures under construction, installed with aluminium sliding windows. Sections/units concerned should ensure burglary proof installations are from the outside of the buildings/structures.
- Offices with burglar proof installations from the inside of the offices/labs, leaving the aluminium panels from the outside of the buildings should report to MSD for further action.
- We are appealing to all concerned to note and comply in order to assist our security unit to have a safe/secured environment in the University.
